Pittsburgh, PA 15202

To Whom It May Concern:

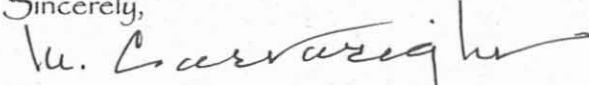

I want to express my thanks for the work done at my house. There was significant storm damage to my roof, which in turn created leaks that caused a great deal of interior water damage. I live in a house built more than 100 years ago, and I had concerns about how well your company would repair the "old" plaster, which I have tried to keep in as many rooms as possible.

After your crew repaired the roof to prevent more interior damage, they tackled the damage inside. And I must say I was impressed. Instead of working on one room from start to finish, they scheduled the work in a logical progression. In other words, while they waited for something to dry in one room, they were working in another room. So they didn't waste time. In addition, considering the type of work done, the house stayed remarkably clean, and the crew "cleaned up" at the end of each day. So I have very little follow-up work to do, which is a relief.

But above all, the quality of the work is first class. I would challenge anyone to find the repair sites; each has been blended into the room in such a way as to be completely invisible. That says a lot about the caliber of the people who worked on my job, and I'm grateful to them.

In fact, I would not hesitate to recommend your company to anyone in need of services such as yours.

Sincerely,

Margaret (Peg) Cartwright
