Re: Home Reconstruction

I would like to let you know how much I appreciate all of your professionalism.

On May 8, 2009 when my home was struck by a fallen tree, your crew immediately came out and secured my home. In the following days your company started the reconstruction work that was needed to repair my home. I was not able to reside at my residence during this reconstruction. Each time I visited my property, my neighbors would tell me how AWESOME the crew was. They would tell me that your employees were very, very polite men and I agree, I really enjoyed the pleasant, professional experience that I had with them and they are very neat and thorough. I would like to point out something very special... One day when I went to the property I noticed that one of the workers had found one of my chimes somewhere in the yard and placed a nail on the porch area and hung the chime from it. It was a very special, considerate and heart warming gesture. Priceless.

My experience with your company has definitely been very pleasant. Matt Pool and Todd Rohal are some of the greatest people to work with, as I said before they are pleasant and professional which is a great reflection on your company.

In a whole, G S Jones would receive a perfect 10 on a scale of 1-10. My family and I are very pleased with your service. Thank you very much.
