Scott,

Just wanted to drop you a note expressing my satisfaction with the reconstruction work just completed. Your staff did an outstanding job and was very professional in their approach to completing the job.

I would not hesitate and in fact have already recommended your company to friends of mine as I know they will be very satisfied with your operation. Paul Plubell the Project Manager was very helpful in overseeing the job and keeping me informed as to the schedule of work to be completed.

Thanks for you assistance and getting my home back to normal after a rough winter.

Appreciate all the hard work.
